SATURDAY, OCTOBER 2

DEMOCRATIC TICKET.

FOR GOVERNOR,
A. O. Stanley, of Henderson.

FOR LIEUTENANT-GOVERNOR,
Jas. D. Black, of Knox.

FOR SECRETARY OF STATE,
Barksdale Hamlett, of Christian.

FOR AUDITOR,
Robt. L. Green, of Franklin.

FOR TREASURER,
Sherman Goodpaster, of Franklin.

FOR CLERK COURT OF APPEALS,
Rodman W. Keenon, of Mercer.

FOR SUPT. PUB. INSTRUCTION,
V. O. Gilbert, of Simpson.

FOR COM. OF AGRICULTURE,
Matt S. Cohen, of Fayette.

FOR CIRCUIT JUDGE,
J. T. Hanbery, of Christian.

FOR COMMONWEALTH'S ATTY.,
Denny P. Smith, of Trigg.

FOR CIRCUIT CLERK,
Walter A. Radford.

FOR REPRESENTATIVE,
Thos. C. Jones.

Except Wrinkles.

Women love new hats and suits
And buy them in a twinkling;
They want the very newest thing—
Except the newest wrinkle.

—Commercial Appeal.

The Germans seem to have worn
their welcome out in France.

Eleven miners were entombed in
a coal mine at Hansford, Pa., Tues-
day.

If the flies have men enough they
may be well on towards Berlin by
Christmas.

Cotton sold for 12 cents a pound
at Decatur, Ala., Wednesday and
business is picking up.

A man from Illinois taken to a Pa-
ducah hospital for an operation de-
veloped hydrophobia and died in the
hospital. The doctors are still
wondering if he was one of the fel-
lows who was bit and didn't know it
when he sent for a doctor.

Five persons are known to be dead,
many people injured and property
loss reaching into the millions has
been caused by the most severe gulf
storm in the history of New Orleans.
A bowling gale with a velocity of
eighty-six miles an hour swept the
city at 6 o'clock Wednesday, demol-
ishing scores of buildings, stripping
the roofs from hundreds of other
structures and strewing the streets
with broken glass and debris.

Organic union of the northern and
southern branches of the Presbyter-
ian church as an essential to the
highest efficiency of the work of this
denomination in the south and south-
west was advocated by the Rev.
James E. Clarke of Nashville, Tenn.,
editor of the Presbyterian Advance,
in an opening address at the south-
ern district efficiency convention at
Hot Springs. Other speakers includ-
ed Rev. F. J. Creek of Kentucky,

H. Miller, Tennessee, and Rev.
Charles Darby, Alabama.

Ed Franks, of Owensboro, is un-
able to lose his nickname of "Bron-
cho," as the years come and go. It
is not generally known that he got
his nickname in this city. It was a
number of years ago when Ed didn't
know as much as he does now, that
he declared, as the story goes, in an
impassioned burst of eloquence,
while making a Republican speech in
1900, "The Democrats are talking
about imperialism and are trying to
sidetrack the tariff issue, but the
tariff question, like Broncho's ghost,
will not down." And ever since he
has been called "Broncho" Franks.

GOOD COW STALL AND FLOOR

Dairy Building Should Be Constructed
With Aim to Keep Cows Dry and
Clean as Possible.

While it is more pleasant to work in
fine barns, it is not necessary to have
them in order to get good results, but
items under this head are quite neces-
sary for getting the best returns.
With the comfort of the animal in
view, our buildings should be con-
structed with the aim to keep the cows
as dry and clean as possible. Cement
floors built with about the same thick-
ness as sidewalks and so constructed
as to offer good drainage are the
most serviceable, says a writer in West-
ern Farmer. They should contain a
gutter 18 to 20 inches wide and seven

Stall and Floor Plan.

to eight inches deep. The gutter
should slope to one edge and also to
one end, as in Fig. 1, which shows
a cross-section.

The front gate should be adjust-
able, so as to close to the rear edge of
the platform. The manger may be
made of wood or cement, but in all
cases should be partitioned off so as
to keep each cow's food separate.
Some stockmen object to cement floors
on the ground that they give the
cows rheumatism and produce sore
feet. If proper bedding is given,
there should be no trouble. Many
think such a floor construction extran-
giant and impractical for the average
dairyman, but it is not. While the
original cost may be a little more, it
will be cheaper in the end and far
more serviceable. Such a floor will
outwear many made of wood and will
be far more sanitary in every way.
They are easier to clean and do not
give off odors like a board floor,
which soaks up filth and causes an
ever-present odor in the stable.

The stalls should be separate so
that each animal will be by herself,
and she will soon learn to take her
own place when entering the stable.
This is not saying that good stables
cannot be built of wood, but it is to
remind the man who contemplates
building or wishes to remodel his barn
that it pays to build well.

TO GET BETTER DAIRY COWS

Breeders' Association Keeps One in
Touch With Best and Modern
Ways of Managing Herd.

1. Treat cows gently and avoid ex-
citement.
2. Be regular in time of milking.
3. Keep stables clean, well-lighted
and ventilated.
4. Weigh the milk of each cow at
milking time.
5. Get your neighbor to share with

Jersey Cow With a Fine Record.

you in owning a Babcock milk tester,
and test the product of each cow.

6. Discard the animals which have
failed at the end of the year to pay
for their keep.
7. Breed your cows to a purebred,
registered dairy bull from a family
having large and profitable produc-
tion of butter fat.
8. Raise well the heifer calves from
cows, which for one or more genera-
tions have made large and profitable
productions of milk and butter fat.
9. Breed heifers to drop their first
calves at twenty-four to thirty months
of age. Give cows six to eight weeks'
rest between lactation periods.
10. Join a dairy cattle breeders' as-
sociation. It will help you keep post-
ed and in touch with the best and
most modern ways of managing your
dairy herd.

For the Silo.
Short, immature corn should be al-
lowed to stand until nearly dry before
putting into the silo. That is, the
leaves should be nearly dry; the stalk
should be pretty well filled with sap.
If this corn is put in while too green
it may make our silage.

Ideal for Keeping Milk Cool.
A springhouse or a refrigerator is
the ideal thing for keeping milk cool,
but millions of pounds of good butter
are made every year with no better
equipment than a tank for the cans
filled with a pump from a well.

Repair Leaking Teat.
If a cow has a little hole in the
side of her teat, through which the
milk squirts, wait till she is dry, then
scrape the edges of the hole till it
bleeds and sew together. Take out
the stitches when she has calved.

Terrible Picture of Suffering.

Clinton, Ky.—Mrs. M. E. McElroy.
In a letter from Clinton, writes:
"For six years, I was a sufferer from
female troubles. I could not eat,
and could not stand on my feet,
without suffering great pain. Three
of the best doctors in the state said
I was in a critical condition, and go-
ing down hill. I lost hope. After
using Cardui a week, I began to im-
prove. Now I feel better than six
years." Fifty years of success, in
actual practice, is positive proof that
Cardui can always be relied on, for
relieving female weakness and
disease. Why not test it for your-
self? Sold by all druggists.—Adver-
tisement.

ANNOUNCEMENTS.

We are authorized to announce
R. H. HOLLAND
as a candidate for City Commission-
er of Hopkinsville, subject to the ac-
tion of the voters of Hopkinsville at
the primary election to be held on
Saturday, October 16th, 1915.

We are authorized to announce
F. H. BASSETT
as a candidate for City Commission-
er of Hopkinsville, subject to the ac-
tion of the voters of Hopkinsville at
the primary election to be held on
Saturday, October 16, 1915, as pro-
vided by Section 3480 B, Subsection 6
of the Kentucky Statutes.

We are authorized to announce
J. SOL FRITZ
as a candidate for Commissioner for
the city of Hopkinsville, subject to the
action of the voters of said city in
the primary election to be held
Saturday, Oct. 16th, 1915, as pro-
vided by section 3480 b, sub. sec. 6, Ky.
statutes.

We are authorized to announce
M. F. CRENSHAW
as a candidate for Commissioner for the
City of Hopkinsville, subject to the
action of the voters of said city in
the primary election to be held Sat-
urday, Oct. 16th, 1915, as provided
by section 3480 b, sub. sec. 6, Ky.
statutes.

We are authorized to announce
GARNER E. DALTON,
as a candidate for City Commissioner
of Hopkinsville, subject to the action
of the voters of said city at the pri-
mary to be held on Saturday, Octo-
ber 16th, 1915.

We are authorized to announce
R. M. WOOLDRIDGE
as a candidate for Commissioner for the
City of Hopkinsville, subject to the
action of the voters of said city in
the primary election to be held Sat-
urday, Oct. 16th, 1915, as provided
by section 3480 b, sub. sec. 6, Ky.
Statutes.

We are authorized to announce
W. R. WICKS
as a candidate for City Commission-
er of Hopkinsville, subject to the ac-
tion of the voters of Hopkinsville at
the primary election to be held on
Saturday, October 16, 1915, as pro-
vided by Section 3480B, Subsection 6
of the Kentucky Statutes.

No other building mate-
rial offers such a low cost of
maintenance as Brick.

There is literally nothing
to do, year after year to the
outside walls of a Brick
House.

If you are building for
home or investment, why
use a material which must
be constantly painted, re-
paired or even replaced.
Why not use

BRICK
THE
EVERLASTING
MATERIAL.
WHEN YOU BUILD
USE BRICK

Would be pleased to show
you the different colors at
our Pavillion at the Fair
grounds.

BUILDING

WORKING FOR BETTER ROADS

Ways in Which Department of Agri-
culture Offers Advice and Assist-
ance—Free Lectures Given.

Communities interested in the im-
provement of roads are recommend-
ed by the department of agriculture to
apply for a lecturer on the subject.
Lecturers will be sent at the govern-
ment expense wherever there is reason
to believe that audiences will be
large enough to make the expenditure
of time and money worth while.
Whenever possible it is, of course,
desirable for a number of communities
in the same vicinity to make arrange-
ments for lectures at the same time,
since in this way the traveling ex-
penses for each stop made by the lec-
turer are materially reduced.

The number of lecturers at the dis-
posal of the department is limited, and
it is not always possible, therefore, to
comply with every request. When a

Vitrified Brick Pavements for Country
Roads—Filling the Joints.

lecturer cannot be sent, however, the
department will loan a set of suitable
lantern slides to any responsible local
association or individual who will
pay the express charges. The only
requirement is that the slides be
made of active and practical use in
the community and that they be re-
turned in good condition in 90 days.
In addition, a brief outline of a lec-
ture to accompany the slides will be
forwarded on request.

In addition to this educational work
the department is always ready to re-
spond to requests for practical assist-
ance which may take the form of spe-
cial advice and inspection, superin-
tendence of county roads, road sur-
veys, experimental road work, bridge
work, or the development of a model
system of highways for a county. To
obtain such assistance local authori-
ties should secure a blank form from
the office of public roads on which to
make applications. Requests from
corporate villages or cities cannot be
met, however.

Bridge work is one branch of road
building in which the department may
be of particular service to local au-
thorities. Typical designs have been
prepared and copies of these can be
furnished on request. A few minor
alterations would probably make such
a design suitable for special condi-
tions, or an engineer may be assigned
to inspect the site and offer sugges-
tions. In some cases designs by bridge
companies have been reviewed by the
department for the benefit of local of-
ficials.

Possibly the most important way,
however, in which the department as-
sists individual communities in the
betterment of their roads is in laying
out a model system of highways for a
county which is about to expend a
large sum of money on roads. In such
cases the department assigns an en-
gineer to make a thorough study of
the district. He ascertains where the
best road materials are, what
roads are the most important, and,
therefore, to be improved first, and
provides for the location of each road
so as to secure the best possible drain-
age and grade.

New Road Surfacing.

It is reported that an experiment is
being made with a material which
heretofore has been a waste product of
glass factories, for road-making. This
is a thick, sirupy liquid that hardens
when exposed to the atmosphere, form-
ing a substance that somewhat re-
sembles glass. A quantity of this
material is mixed with crushed stone
and used to surface a stretch of high-
way in Illinois, forming a surface that
is as smooth as concrete. How this
surface will stand up under weather
and wear will be watched with inter-
est.

Road Dragging.

Good roads save money, because:
They cheapen transportation to the
markets; they reduce the drain upon
capital invested in horses; they pre-
vent waste of time, and "time is
money;" they add to the joy of living,
and joy adds to the effectiveness of
life; good roads may be had by drag-
ging; use the drag.

3 IN ONE OILS,
CLEANS, POLISHES,
PREVENTS RUST

3
IN
ONE

3-in-One is a light, pure oil com-
pound that never gums. 3-in-One lubricates
perfectly sewing machines, typewriters, locks, clocks,
guns, lawnmowers—everything that ever needs oiling in your home or
office. No grease. No acid. A little 3-in-One on a soft cloth cleans
and polishes perfectly all veneered or varnished furniture and woodwork.
Sprinkled on a yard of black cheesecloth it makes an ideal Dustless Dusting Cloth.
3-in-One absolutely prevents rust on gun barrels, auto fixtures, bath room
fixtures, gas ranges, everything metal, indoors or out, in any climate. It sinks
into the unseen metal pores and forms a protecting "overcoat" which stays on.
Free—3-in-One—Free. Write today for generous free bottle and the
3-in-One Dictionary of hundreds of uses.
3-in-One is sold in all good stores in 3-size bottles: 10c (1 oz.), 25c (3 oz.),
50c (8 oz., 1/2 pint). Also in new patented Handy Oil Can, 25c (3 1/2 oz.).
